

1. Regarding the system speed, XXXX has a color & black & white solutions with 51 images per minute color & 51 images per minute black & white. Would this system be an acceptable candidate for this RFP?

Answer: No, we are going to stay with the original speed specs.

2. Upon review, we were wondering are the terms for default 10 or 30 days?

Answer: 30 days.

3. Is this a standard court procurement document, or was this created specifically for this RFP?

Answer: This is our standard document with a few changes specific to this RFP.

4. Will the court sign a standard maintenance agreement, or are you issuing PO?

Answer: After review the Court would sign a standard maintenance agreement.

5. Can we as the vendor submit our standard doc with the response for review?

Answer: You may submit your standard doc with the response

6. My previous experience is courts are often able to buy "open market", is this the case with Marin County Superior Court?

Answer: Yes.

7. What would the primary applications be for this color & black & white solution, what type of projects etc.?

A mix of network printing, scanning, and copying. The Court would like the new machine to be used for some items that we now send out to our print shop. These items would include full color brochures, pamphlets, instructions for the public, ect
